## CAREER OBJECTIVE

Data Science and Full-Stack Development enthusiast pursuing B.Sc. Computer Science (Data Science), with hands-on internship experience building production backend systems, RESTful APIs, and machine learning models. Delivered a SaaS platform processing 600,000+ records, secure Django/DRF APIs with JWT and payment gateway integration, and ML models with up to 98.2% accuracy. Seeking a Software Development, Data Science, or Data Engineering role to apply and deepen real-world engineering skills.

## EDUCATIONAL QUALIFICATION

**Bachelor of Science in Computer Science (Data Science)** **2024 – 2027**
*Nehru Arts and Science College, Coimbatore* *CGPA: 7.21 / 10 (5th Sem In Progress)*
**Relevant Coursework:** Machine Learning, Statistics & Probability, Data Structures & Algorithms, DBMS, OOP

**Higher Secondary (Class XII) - Computer Science** **2022 – 2024**
*BEM Higher Secondary School, Palakkad* *Percentage: 76.00%*

**Secondary (Class X)** **2022**
*BEM Higher Secondary School, Palakkad* *Percentage: 77.00%*

## TECHNICAL SKILLS

| | |
|---|---|
| **Programming:** | Python, JavaScript, SQL |
| **Backend Frameworks:** | Django, Django REST Framework (DRF), Fast API, Flask, REST APIs |
| **Frontend & Mobile:** | React.js, Next.js, Flutter, HTML5, CSS3 |
| **Databases:** | PostgreSQL, MySQL, MongoDB, SQLite, NeonDB |
| **AI / ML Engineering:** | Scikit-learn, Random Forest, Gradient Boosting, SMOTE, Predictive Modeling, EDA, Prompt Engineering |
| **Data Analysis & BI:** | Pandas, NumPy, Power BI, Chart.js |
| **Auth & Cloud:** | JWT Authentication, Razorpay Gateway, AWS, Docker, Git, GitHub, Vercel, Redis |

## INTERNSHIP EXPERIENCE

**Full Stack Developer Intern** **Apr 2026 – Jun 2026**
*TechFifo Innovations* *Palakkad, Kerala*

**Tools Used: Django REST Framework, React.js, PostgreSQL, MySQL, JWT, Razorpay, Git**

- Engineered secure RESTful APIs using Django REST Framework with JWT authentication, Email OTP verification, and Razorpay payment integration across PostgreSQL and MySQL databases.
- Built high-performance React.js frontend interfaces and contributed to full-stack system architecture across multiple real-world client projects.
- Collaborated in an Agile/Scrum environment with daily standups, sprint planning, GitHub code reviews, and cross-functional frontend/mobile teams.

**Data Analyst Intern** **Apr 2026 – Jun 2026**
*Bluestock Fintech* *Remote*

**Tools Used: Python, Pandas, PostgreSQL, Django REST Framework, Power BI, Excel**

- Built a Nifty 100 Financial Intelligence Platform with a Python ETL pipeline, PostgreSQL database, and Django REST API web app.
- Cleaned and resolved data quality issues (duplicates, inconsistent formats, foreign key mismatches) across 7 real-world Excel datasets.
- Computed financial metrics (CAGR, Sharpe Ratio, Alpha, Beta) and designed interactive Power BI dashboards with real-time NAV tracking for stakeholders.

## FEATURED PROJECTS

**India Geo API - Village-Level Geographic Data Platform (SaaS)** **2026**

**Tools Used: Next.js 16, NeonDB (PostgreSQL), Redis (Upstash), Razorpay, JWT**

*Live: geo-api-blond.vercel.app | GitHub: github.com/muhammedfahim438-ctrl/geo-api*

- Built a production-grade SaaS REST API platform serving India's village-level geographic data, parsing 619,000+ villages from Census XLS files into a NeonDB PostgreSQL database.
- Implemented Redis caching, JWT + API key authentication, tiered rate limiting, and Razorpay subscription payments, deployed on Vercel with a B2B portal and admin analytics dashboard.

**VitaSense AI Diabetes Prediction Platform** **2026**

**Tools Used: Python, Flask, Scikit-learn, SMOTE, Random Forest, Gradient Boosting**

*GitHub: github.com/muhammedfahim438-ctrl/VitaSense-AI-v2*

- Achieved 98.2% accuracy (ROC-AUC 0.9975) using a Random Forest + Gradient Boosting voting ensemble trained on 5,000 patient records with SMOTE-based class balancing.
- Built a Flask REST API and web app delivering real-time risk prediction, an educational chatbot, and an analytics dashboard.

**UniPath - College Counselling & Wellness App** **2026**

**Tools Used: Flutter, Firebase (Auth, Firestore, Cloud Messaging), AI Chatbot**

*GitHub: github.com/muhammedfahim438-ctrl/unipath*

- Built a cross-platform Flutter mobile app for student counselling and wellness services with phone/email OTP authentication, appointment booking, a learning-style assessment quiz, and an AI-powered chatbot.
- Developed an admin analytics dashboard with CSV report generation for tracking student engagement.

## CERTIFICATIONS

- Programming Fundamentals – Infosys Springboard (2026)
- n8n Workflow Automation (2026)
- Linguaskill Certification (2026)

## KEY ACHIEVEMENTS

- Awarded **Best Digital Innovation Award**, Nehru Arts and Science College (2026).
- Achieved 98.2% test accuracy on a healthcare ML classification model using a Random Forest + Gradient Boosting ensemble with SMOTE class balancing.
- Built and shipped a SaaS API platform processing 619,000+ geographic records, from architecture through Vercel deployment.

## DECLARATION

I hereby declare that the details and information given above are complete and true to the best of my knowledge.
